

# LE GALINIER

*Le Galinier, a former 18th century Provencal country house, is this family residence that we reopen every summer. There, we find the forgotten Provence, craftsmanship, cuisine, literature and art that make up the region's richness. In an authenticity free from all clichés, we relax, away from the bustle of the village, facing the Petit Luberon. Le Galinier is a cultivated place, an ode to suspended time.*

## LE GALINIER

This Provencal house, located in Lourmarin and nestled in its 3 hectares park, invites you to a complete change of scenery. As in an ideal garden, flowers and hundred-year-old trees stand alongside a swimming pool and water games to offer you a haven of peace and freshness with the scents of Provence. Offering several spaces that combine intimacy, conviviality and comfort, this guest house has a classic Provencal decoration or a resolutely contemporary style from which emerges an atmosphere so personal that it gives the impression of being, if not at home, at least with friends.

## APPARTMENTS

The Galinier accommodations, soothing and delicate settings of softness, invite you to relax. Provençal-style ceilings, floor tiles, cream-colored walls and bleached wood furniture invite you to discover the authentic Provence between intimacy and conviviality, as in a family home.

All apartments have double or twin beds, a bathroom with shower or bath and toilets, an equipped kitchen, a dining-room and a living-room with fireplace.
